Board: Week 10 — Update User Access Matrix · 10 November 2026

Prepared By	Sabitha S Karanavar
Source	rbac_v2.MATRIX (design) + read-only Microsoft Graph / Azure snapshot (actual)
Cross-check result	**32 of 32** department accounts match the matrix exactly (0 differences)

1. Department roles × applications

RW = read and write · R = read · A = administer · L = limited · — = no access. Access is granted only through `SG-<Dept>-<App>-<Access>` security groups; app assignments follow the groups.
