IAM Ticket IAM-0002: Nurse to Pharmacy Transfer

AccessGuard Health – Healthcare IAM Operations Simulation

Ticket ID	IAM-0002
Related ticket	HVMC-JML-202 (same transfer recorded in Microsoft Entra ID)
Request type	Mover: change of department and role access
Priority	Normal
Status	Resolved and closed
Date	November 3, 2026
Requester	Pharmacy Manager (fictional)
Approver	IT Admin
Handled by	Sabitha S Karanavar (IT)
Employee	Noah Fischer, Nursing to Pharmacy Technician (fictional)

Request

Move an employee from Nursing to Pharmacy. Remove his nursing access and give him the access a pharmacy technician needs.

Systems and Account Changes

Item	Before	After
Systems	HVMC.LAN directory (Samba4 AD) on hvmc-dc01; EHR share; PharmacySystem share	
Username	noah.fischer	noah.fischer
OU	OU=Nursing,OU=Users	OU=Pharmacy,OU=Users
Group	SG-Nursing-EHR-RW	SG-Pharmacy-PharmacySystem-RW
EHR share	Read/write	Read-only
PharmacySystem share	Read-only	Read/write

Actions Taken

- Recorded the before state (OU and group) and set a lab password for testing.
- Before-test as Noah: created a folder in EHR (write allowed).

- Removed him from SG-Nursing-EHR-RW, then added him to SG-Pharmacy-PharmacySystem-RW, then moved him to OU=Pharmacy.
- Recorded the after state and tested again from the client hvmc-client01.

Verification

Test	Expected	Result
Write to EHR before	Allowed	Allowed
New OU and group	OU=Pharmacy, Pharmacy group only	Confirmed
Write to EHR after	Refused	Refused (NT_STATUS_ACCESS_DENIED)
Read EHR after	Allowed	Allowed
Write to PharmacySystem after	Allowed	Allowed

Resolution Notes

The old group was removed before the new one was added, so the employee never held both roles at once. After the move he can read the EHR but can no longer change it, and he can write to the Pharmacy system. The same transfer was recorded in Microsoft Entra ID under HVMC-JML-202; this ticket applies it to the on-premises directory so both agree.

Evidence

The full walkthrough is in the *Employee Transfer Activity* document.

```
ubuntu@hvmc-dc01:~$ sudo samba-tool user show noah.fischer | grep -E "^dn:|memberOf"
[sudo] password for ubuntu:
dn: CN=Noah Fischer,OU=Nursing,OU=Users,DC=hvmc,DC=lan
memberOf: CN=SG-Nursing-EHR-RW,OU=Groups,DC=hvmc,DC=lan
ubuntu@hvmc-dc01:~$
```

Figure 1: Before: OU and group

```
ubuntu@hvmc-dc01:~$ sudo samba-tool group removemembers SG-Nursing-EHR-RW noah.fischer
Removed members from group SG-Nursing-EHR-RW
ubuntu@hvmc-dc01:~$ sudo samba-tool group addmembers SG-Pharmacy-PharmacySystem-RW noah.fischer
Added members to group SG-Pharmacy-PharmacySystem-RW
ubuntu@hvmc-dc01:~$ sudo samba-tool user move noah.fischer "OU=Pharmacy,OU=Users"
Moved user "noah.fischer" into "OU=Pharmacy,OU=Users,DC=hvmc,DC=lan"
ubuntu@hvmc-dc01:~$
```

Figure 2: Transfer commands

```
ubuntu@hvmc-dc01:~$ sudo samba-tool user show noah.fischer | grep -E "^dn:|memberOf"
dn: CN=Noah Fischer,OU=Pharmacy,OU=Users,DC=hvmc,DC=lan
memberOf: CN=SG-Pharmacy-PharmacySystem-RW,OU=Groups,DC=hvmc,DC=lan
ubuntu@hvmc-dc01:~$
```

Figure 3: After: OU and group

```
ubuntu@hvmc-client01:~$ smbclient //hvmc-dc01.hvmc.lan/EHR -U 'HVMC\noah.fischer' -c 'mkdir pharmacy_test; ls'
